

Bostik Back School

You will need:
Bostik Glue Stick
Bostik Clear Gel Adhesive
Thick white/coloured card
Toilet roll/kitchen towel
inners
Wrapping Paper
Scissors

Buzz & Woody Desk Caddy

Let Buzz and Woody protect your pens and pencils and keep your desk clean and tidy!

Step by Step...

1. Cut the inners so that you have different heights.
2. Cut the thick card for the base, which you can also cover with wrapping paper.
3. Use the Bostik Glue Stick to glue the wrapping paper onto the inners.
4. Use the Bostik Clear Gel Adhesive to glue the inners to each other, so that you have one element. This is easier to work with than 4 separate inners.
5. Apply Bostik Clear Gel Adhesive to the bottom of the inners, press onto the base, and lift immediately. Allow to dry for about 15 seconds, and then press down again to create a permanent bond.

Don't just stick it. Bostik it.
