FR DUCT SEALER

Date: 2 March 2016

YOUR SMART ADVANTAGES

- Fast drying
- Non slump
- Flexible
- Paintable
- Good adhesion to wide range of substrates

USES

- Seal lap joints in heating and air conditioning ducting.
- Seal roofing joints.
- Automotive applications such as internal seam repairs on cars, buses, caravan and trailer bodies.
- Bonds well to metals including galvanized iron and ducting foil. Also bonds to wood and concrete.

DIRECTIONS FOR USE

Read the Safety Data Sheet before using this product.

SURFACE PREPARATION

Always ensure that the surfaces to be sealed are dry and free from oil, dirt and grease. Use the two wipe cleaning process for impervious substrates. Ensure the cloths are clean and changed frequently. Use a suitable cleaner such as isopropyl alcohol. Masking areas to be sealed gives a neater finish.

APPLICATION

Cut the nozzle to the desired width and place in a caulking gun. Apply an even bead ensuring good contact between the sealant and the substrates. Immediately tool the bead as required to ensure a good finish then remove the masking tape. This must be done before the product skins.

LIMITATIONS

- FR Duct Sealer is not suitable for use on polystyrene.
- Will not adhere to polyethylene or Teflon.
- Suitable for joints up to 5mm only.
- Test compatibility first when sealing painted or coated surfaces.

CLEANING

Bostik No. 2 Solvent or mineral turpentine while the adhesive is wet. Use Bostik Handy Wipe towels remove adhesive from skin. Dried sealant is best removed by scraping or sanding.

STORAGE AND SHELF LIFE

Store in a cool dry place below 25°C and out of direct sunlight. Shelf life is 12 months from the date of manufacture when stored as directed.

DISPOSAL

Empty containers may be disposed via local landfill. If split, absorb with clay, sand or earth. Collect and seal in properly labelled metal container. Dispose of according to local authority regulations. Do not dispose of down drains or into local waterways.
